

Certificate No.: TERA/CERT-IN/09/2026/CR/09	Date: 11-09-2026
Audit Number: AUD202609021E46A12120C3B401	Report ID: TTPL/Certin/PR/26/09/webapp/PN/S010/v2.0

SECURITY AUDIT CERTIFICATE

Web Application Name	NRC Makhana Web Application
Executed Through	ICAR National Research Centre for Makhana
Portal Testing URL	https://nrcmakhana.res.in/
Production URL	https://nrcmakhana.res.in/
Audit Performed By	Nikhil Chaudhary, Niharika Meena, Rashmi J, Terasoft Technologies Pvt. Ltd.
Testing Period	03/09/2026 to 11/09/2026
Audit Type / Level	Final Audit
Issue Date	11/09/2026
Validity	This certificate is valid until any change is made to the software configuration, source code, or version, OR six (6) months from the date of issue, whichever is earlier.
Scope / Methodology	OWASP Top 10 and CERT-In empanelment guidelines for web application security audit.
Recommendations	- Web server and OS-level hardening to be in place on the production server. - Entire application should be hosted over a valid SSL/TLS certificate (TLS 1.2 or above). - All software components used in the web application should be of the latest stable version. - Periodic re-assessment is recommended after every major release or configuration change.
MD5 Hash of Published Code	3dc00183be3602059f11d3d30817804d

Conclusion: Based on the security assessment conducted during the testing period stated above, the web application is found to be free from OWASP Top 10 (2025) and other known vulnerabilities as on the date of issue, and is certified safe for hosting.

Note: This certificate applies only to the application version corresponding to the hash value(s) mentioned above and the URLs listed herein.

Disclaimer: This certificate is issued based on the source code provided for review. It is not a warranty or guarantee of absolute security and should be considered in conjunction with ongoing security maintenance.
